

Architectural Structures – Attic Medallion

This item (**Attic Medallion**) is only found on 1 of the 3 models (Springfield) within The HAMLETS community. If you live in the Springfield model the attic medallion is located on the front of the home near the apex of the front peak (gable). As the placement is the same there are two styles dependent upon if the home has siding or brick front. The Attic Medallion is to be painted white as is all the trim.

Attic Medallion – on Springfield Model with siding

Attic Medallion – on Springfield Model with Brick front

All Wood Trim – to be painted **White** – [McCormick Paints](#) – [State House Exterior Flat Acrylic Latex Super White](#) is the original white color. White is white but this is the exact white of the exterior color scheme that the builder applied. (*Refer to the bottom of this job aide for this paint information*). Wood trim can also be wrapped or replaced with Trex, etc. but must be white in color.

Questions can be directed to HOA Board and/or ARB members and refer to the HOA webpage at: www.thehamlets.com for additional color samples, information, and the “Contact Us” section.
